

Rapid, responsible change: what Version 1 can do for Lloyds Banking Group

Data-driven, digital first, and delivering incredible customer experiences. Technology sits at the heart of Lloyds Banking Group's vision for the future. But with legacy infrastructure and stringent regulation standing in the way, you need partners who can help you navigate through this complex environment with confidence.

Since 2020, Version 1 has been helping Lloyds Banking Group deliver change at speed—unpicking your challenges and unlocking new opportunities. Now, we're ready to do even more...

We understand your priorities

Drive revenue growth

Through innovation, new offerings, digitisation, and diversification.

Strengthen capital efficiency

With a disciplined approach to cost management, and further investments into self-service.

Maximise potential

By accelerating the pace at which LBG uses digital and data to support customers.

How can we help? By...

Accelerate modernisation

To deliver on your growth ambitions, you need things done on time and in budget. Whether you're decommissioning legacy or accelerating migrations, our award-winning teams can help.

Delivering quality

As Lloyds Banking Group continues its investment into workforce transformation, we can provide the skills, resources, and expertise that you need to deliver quality—anywhere in the world.

Driving change

Today, staying ahead of the competition means being agile, adaptive, and compliant. Our deep experience in highly regulated environments can help you to drive change responsibly.

Introducing AI Labs

“Our mission is to facilitate our client's adoption of AI-related technologies to reimagine business success and drive customer satisfaction.”

Established in 2022, AI Labs has a deliberately narrow focus to help Lloyds develop real-world solutions on Generative, AI, Conversational, AI, Computer Vision, and Sustainable AI—including ethics and explainability.

Boosting resilience and improving experiences
